

The Official World Fringe Congress

Closing Statement

The Inaugural World Fringe Congress took place in Edinburgh - 16 & 19 August 2012.

We met to exchange ideas and experiences and we have discovered that within the huge variety of models and philosophies, there is much we have in common.

Each Fringe is unique and is responsive to its own local environment and community. What binds us together is our commitment to a Fringe ideal and our belief in its importance and impact for artists and audiences.

We are proud to have created a new network and strengthened the Fringe family.
